16 rue des Saints-Pères, Paris

Peter Ismert
(1961 -)

Dear friends,

*Our next exhibition will be dedicated to the American artist Peter Ismert,
and we look forward to seeing you on Thursday November 16
for the opening in the artist's presence.*

*It's with great honor that we'll be presenting larger works
than those exhibited recently.*

*His work, presented in a presentation close to his studio settings, will
involve us in the process that leads him to compose paintings
that are just as rigorous as the many references he invokes.*

*The complex composition of a Braque, the cut-outs of a Miro - to
name but a few - influence Peter Ismert's analytical cubism.*

*Specifically : to reconsider form in an elegant
fragmentation, in line with our forthcoming programming.*
